AUDIT FINDINGS

Narrative:

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

A Prison Rape Elimination Act (PREA) audit was conducted at the Central Maryland Correctional Facility (CMCF) to determine compliance with the Prison Rape Elimination Act standards, which became effective August 20, 2012. The facility tour and on-site visit was conducted on November 2, 2016 through November 3, 2016.

An entrance meeting was held the first morning of the site visit with the following persons: Facility Administrator, Michelle Jones; Major Charles Mitchel; PREA Compliance Manager, Captain Catherine Herd; and Case Manager/Pre-Trial PCM David Green.

The auditor wishes to extend its appreciation to Facility Administrator Jones and her staff for the professionalism and hospitality they demonstrated throughout the audit and their willingness to comply with all requests and recommendations made by the auditor prior to and during the onsite portion of the audit.

The auditor would also like to recognize PREA Coordinator David Wolinski, PREA Compliance Manager Captain Herd, and Pre-Trial PREA Compliance Manager David Green for their hard work and dedication to ensure the facility is compliant with all PREA standards.

After the entrance meeting the auditor was given a tour of all areas of the facility; including the Lobby (also serving as the chapel, visitation area, and roll-call room), Traffic/Operations, Control Center, Property, Holding, Chaplain's Office, Medical, Library, Barber shop, Administration Building (containing Frederick, Baltimore, Howard, and Carroll dorms; ODR, inmate dining, kitchen, TV/Rec room, and shower room) B-Building (containing Somerset, Prince George, Worcester, and Talbot dorms on upper level / Garrett, Alleghany, Kent, and Montgomery dorms on the lower level); barber shop, Substance abuse, and recreation yard. The tour also consisted of the boiler Room, Laundry Plant, Cleaning Products Plant, School/Education Building, Intake Area, Property Room, and Case Management. During the tour, several informal interviews were conducted with inmates and staff in the facility.

A random sample of staff interviews were conducted and a total of 25 staff interviews were conducted with at least one staff member interviewed from each interview category, with the exception of interviews related to educational staff who work with youthful inmates, line staff who supervise youthful inmates, and non-medical staff involved in cross-gender searches (these interview types were not applicable to this facility). There are no segregated housing areas in this facility, therefore no interviews were conducted for staff who supervise inmates in segregated housing. There were also no interviews conducted on Security/non-security first responder staff as there were none for this facility. Telephone interviews were conducted with SAFE/SANE from Mercy Hospital. Random Staff interviews were conducted for all three shifts.

A random sample of inmate interviews were conducted and a total of 21 inmates were interviewed. The only inmates interviewed were Random inmates and one LGBTI inmate. No other inmate interviews were applicable for this facility at the time of the site visit.

The count on the first day of the audit for the Central Maryland Correctional Facility was 512. The count on the final day of the audit for Central Maryland Correctional Facility was 516.

Throughout the pre-audit and onsite audit, open and positive communication was established between the auditor and facility staff. During this time, the auditor discussed his concerns with Facility Administrator Jones, PREA Compliance Manager Captain Herd, Pre-trial Compliance Manager David Green and PREA Coordinator David Wolinski. Through a coordinated effort by these key staff members, as well as other staff, all issues were addressed and corrected to the satisfaction of the auditor during the onsite audit.

When the audit was completed, the auditor conducted an exit briefing with Facility Administrator Jones PREA Compliance Manager Captain Herd, and Pre-trial Compliance Manager David Green. Special Assistant Wolinski was also made aware of the details provided during the exit briefing. The auditor gave an overview of the audit and thanked the staff for all their hard work and commitment to the Prison Rape Elimination Act.

Facility Characteristics:

The auditor's description of the audited facility should include details about the type of the facility, demographics and size of the inmate or resident population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation.

DESCRIPTION OF FACILITY CHARACTERISTICS:

Central Maryland Correctional Facility (CMCF), formerly named the Central Laundry Facility, was constructed in 1960 as part of the correctional camp system. The main building is a one-story brick building with a partial basement situated on seven acres of land in a rural setting in Carroll County, near Sykesville. There is an adjoining one-story brick multipurpose building with a 256 bed housing unit. The grounds include a basketball court, weightlifting equipment, volleyball areas, and a horseshoe pit. A fence topped with razor ribbon encloses the security perimeter. There is one vehicle gate and a pedestrian gate entrance with a buzzer control system and video cameras.

The Main structure, "A" building, contains four dormitories: Frederick, Carroll, and Howard dorms house 60 inmates each and the Baltimore dorm houses 65 inmates. Each dormitory contains a television, microwave, a hot water station, twelve chairs, and benches for television viewing. Each inmate is assigned a bed and a locker cabinet. There are two inmate lavatories and an inmate shower room with porcelain facilities to accommodate the current population. In addition, there is one television room. The administrative area of "A" building consists of a public entrance, the control center, case management supervisor's office, lavatories, and a property storage room. The remainder of the building includes a dining area, a well equipped kitchen, an operations area, barbershop, commissary, medical department, multi-purpose area, miscellaneous storage space, inmate library, and several case management staff offices. Collect call only telephones are located in the corridor. The basement of "A" building contains administrative and business offices, a conference room area, and audit areas. An adjacent small, portable building is used for school and inmate group meetings.

To the left of "A" building is Housing Unit "B", which contains 256 beds. The "B" building consists of two levels with four dormitories on each level. Inside the brick structure, on the lower level entrance, is a hallway that leads directly to the control center that is glass enclosed for surveillance purposes. On the left side of the hallway, there is an office for custody staff and a barbershop for "B" building inmates only. Located on the right side of the hallway is a room for custody staff and a storage room. Inside the recreational areas located on the right and left sides of "B"-lower is a janitor closet. The four dormitories occupy the four corners of the building. Between the dormitories are identical lavatories with twelve stainless steel toilets, twelve wash basins with mirrors, and a shower area with nine showers. Each dormitory has 32 single beds. Dayrooms are adjacent to lavatories and each is furnished with a pool table, color television, and an ironing board. Behind the control center is a multi-purpose area with mechanical rooms (e.g., boiler and water heater, etc.). Just beyond the interior stairs connect the upper and lower levels on either end of the building. The upper level can be accessed from the outside, via a wheelchair ramp, which leads to an entrance similar to the lower level. The entrance hallway contains the chaplain's office and a storage room on the left hand side and an inmate clothing room on the right hand side. Inside the recreational area of "B"-upper is a janitor closet on the left side as well the right side. There are two showers, one on each side, which will accommodate disabled individuals. The multipurpose room on the upper floor is utilized for group meetings, choir practice, religious activities, and recreational purposes. The two floors are identically equipped and configured.

To the left of Housing Unit "B" is the Residential Substance Abuse Treatment (RSAT) quad trailer. The trailer contains two classrooms, which can be subdivided by partitions, two restrooms, a storage room, a break room, and office space for counselors.

The multi-purpose building, which serves as the entrance point into the facility, contains restrooms, the Facility Administrator's and Secretary's offices, areas for inmate visitation, legal visits, staff meetings, training sessions, conferences, and various programs and services. This area can be subdivided through the use of temporary partitions. The structure is connected to the main building by a walkway.

The laundry plant is located in a one-story building with a basement across the courtyard from the housing units. In addition to the expansive laundry processing area, there is an old boiler room, electrical room, chemical storage area, general storage areas, facility maintenance shop, miscellaneous storage rooms, and laundry staff offices.

The boiler plant is located adjacent to the laundry plant. It consists of two 500 horsepower boilers and two 250 horsepower boilers. These boilers are run by both natural gas and fossil fuel.

On the rear side of the laundry plant, on the outer perimeter, is the vehicle gate building. This structure houses the officer on duty who processes and controls commercial traffic into the facility. There are three double hung gates in this area. Each gate is manually controlled by an officer. Beside the vehicle gate are two storage units for yard maintenance equipment.

The entire facility is equipped with fire extinguishers, posted evacuation plans, emergency lighting system, fire detection, and alarm system

Auditor Overall Determination: Exceeds Standard

Auditor Discussion

OSPS 050.0030 (Sexual Misconduct)states the Department does not tolerate sexual misconduct by an employee, by either omission or commission.

OSPS 200.0004 (Inmate Sexual Conduct) states the Department does not tolerate inmate on inmate sexual conduct.

DPSCS 020.0026 (Prison Rape Elimination Act) states the Department does not tolerate sexual abuse or sexual harassment of an inmate.

MCPRS.200.004.1 (Inmate on Inmate Sexual Misconduct-Prohibited. This policy outlines how it implements the agency's approach to preventing, detecting and responding to sexual abuse and sexual harassment. Included as attachments are a PREA Compliance Manager Checklist form, a Sexual Abuse Incident Review form, and a PREA Response and Containment Checklist form. These standardized forms are utilized as tools to assist in incidents of sexual abuse and/or harassment.

MCPRS.200.0005.1 (Assessment for Risk of Sexual Victimization and Abusiveness-PREA)outlines the standardized risk assessment tool utilized to help in identifying inmates that may be at risk of sexual victimization or at risk of sexual predatory behavior. This policy dictates times frames for completing risk assessments, who will complete them, and the process upon identifying an inmate as at risk.

Information regarding the zero tolerance is provided in pamphlets to inmates. This pamphlet contains definitions, how to report, safety information, PREA Hotline number, and other information regarding PREA. Inmate are provided this and are required to sign a receipt upon receiving this.

DPSCS.020.0026 (Prison Rape Elimination Act) and OSPS.050.0030 (Sexual Misconduct Prohibited) these policies includes definitions of prohibited behaviors regarding sexual abuse and sexual harassment in accordance with this standard.

OSPS.050.0030 (Sexual Misconduct) section 05-I includes sanctions for those found to have participated in prohibited behaviors.

OSPS.200.004 (Inmate Sexual conduct) includes directives for the head of a unit (or designee), supervisors, managers, shift commanders, and other employees outlining their responsibilities during incidents or allegations of sexual abuse or harassment.

DPSCS.020.0026 (Prison Rape Elimination Act) designates responsibilities of the Secretary, PREA Coordinator, PREA Compliance Manager, PREA Committee, Human Resources Services Division, and others regarding agency strategies and responses to reduce and prevent sexual abuse and harassment of inmates in their custody.

Facility has designated a Captain as the PREA Compliance Manager for this facility. The PCM stated during the auditor's interview that she does have sufficient time and authority to coordinate the facility's efforts to comply with the PREA Standards. The PCM reports to the

facility Warden. There are also several DOJ Certified PREA Auditors throughout the agency that assist facilities in preparing for audits, maintaining compliance, and improving areas through site visits, facility walk throughs, and mock audits of the facilities within the Agency.

115.12	Contracting with other entities for the confinement of inmates
	Auditor Overall Determination: Audited at Agency Level
	Auditor Discussion
	The agency has a contract in place and does require as a condition of that contract, compliance with PREA standards. The Agency contract in place does not apply to Central Maryland Correctional Facility. During interview with the agency contract monitor, he indicated he monitors the contract(s) by ensuring he maintains contact with the PREA Compliance Manager for that facility and communicating as needed. He also stated the facility falling under this contract did have their PREA audit conducted last year and made him aware of the results of the audit.

115.13 Supervision and monitoring

Auditor Overall Determination: Meets Standard

Auditor Discussion

115.13 (a)-1 OPS.115.0001 establishes a staffing plan and identifies collapsible posts/when they may be collapsed in order to comply with the current staffing plan. a staffing plan was provided that has been in place since February of 2012. This staffing plan in reviewed annually and a memo was provided (dated February 29, 2012) requesting a continuance of other Special Assignment Posts (SAPs) that is maintained with the current staffing plan.

115.13(2) 2-3 The average number of inmates during the past 12 month period has been 474 and the staffing plan is predicated on an average daily population of 516.

When assessing adequate staffing levels and the need for video monitoring, the facility staffing plan does consider the following:

- a. Generally accepted detention and correctional practices;
- b. Any judicial findings of inadequacy;
- c. Any findings of inadequacy from federal investigative agencies;
- d. Any findings of inadequacy from internal or external oversight bodies;
- e. All components of the facility's physical plant (including "blind spots" or areas where staff or inmates may be isolated);
- f. The composition of the inmate population;
- g. The number and placement of supervisory staff;
- h. Institution programs occurring on a particular shift;
- I. Any applicable state or local laws, regulations, or standards;
- j. The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and any other relevant factors.
- k. Any other relevant factors.
- 115.13 (b)1-2 The facility is required to document any deviations from the staffing plan. The most common instances this would be documented would be for staff call outs and institutional emergencies.
- 115.13(c)-1 The most recent review of the Staffing Plan was completed on October 3, 2016. There were some suggested changes made in order to adjust to areas of concern identified in the previous year.
- 115.13(d)-2 These rounds are documented in the Post Logbooks. Copies of the Post Logbooks were provided during the pre-audit and the auditor also viewed these while on site during the facility audit tour. These rounds covered all shifts, and are documented in red ink to indicate a supervisor made these rounds. During the site visit, the auditor made the suggestion to modify the verbiage when supervisors document their rounds. Current practice was to make an entry worded "Security Round". The auditor suggested adding the word "PREA" or "Unannounced" to the entry before Security Round. The Facility Administration took immediate action to implement the suggested change in wording and provided a copy of a directive from the Warden to all Supervisory staff with the change. All Supervisors were also required to sign an acknowledgement of understanding and receipt.

115.14	Youthful inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	115.14 This facility does not house youthful inmates, therefore this standard does not apply.

115.15 Limits to cross-gender viewing and searches

Auditor Overall Determination: Meets Standard

Auditor Discussion

OPS110.0047 section 5E-3 states a frisk search of a female inmate shall be conducted by a female correctional officer. A frisk search of a male inmate may be conducted by either a male or female correctional officer provided that the female officer does not touch the genital area of the inmate being searched.

OPS110.0047 section 5F-3and4 states a strip search of a transgender or intersex inmate may not be conducted for the sole purpose of determining the inmate's genital status. If an inmate's genital status is unknown, it is to be determined through conversation with the inmate, a review of available medical records, or as part of a broader medical examination conducted in private by a licensed medical professional, when circumstances allow, staff should consult with a transgender or intersex inmate before conducting a search to determine the inmate's preference in the gender of the officer conducting the search.

An inmate strip search shall be conducted by a single correctional officer of the same gender as that of the inmate being searched, in a location and manner that ensures maximum privacy for the inmate being strip searched, and in the presence of an additional correctional officer.

In addition, Procedure A01.A.09.007/IIU.110.0008 is established specifically to give guidelines to the DPSCS Internal Investigative Unit (IIU) investigator to conduct a strip or body cavity search of an individual.

No female inmates are housed in this facility, therefore questions relating to 115.15(b) 1,2,3 & 4 do not apply.

OPS 110.0047 mandates the correctional officer conducting the cross-gender search be responsible to document the search in accordance with requirements established under .05C(1)(b) and C(3) of that directive, and to log and report the search in accordance with established procedures.

OSPS.050.0030 Sexual Misconduct, OPS 110.0047 Inmate Personal Searches, and IIU,110.0008 Strip and Body Cavity Searches include the required procedures that enable inmates to shower, perform bodily functions, and change clothing without non medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks (including via video camera). Additional supporting documentation was provided during the pre-audit in the form of the Facility's Inmate Search Lesson Plan, Inmate Searches Power Point presentation, and Inmate Processing Power Point presentation. During the site visit, one restroom area was missing some of the half-doors to prevent cross gender viewing. The auditor was advised that this had already been addressed and a work order for maintenance to install new half-doors was in place. The auditor requested, and received a copy of the work order, thus satisfying any concerns he had with this area.

All staff have received training on conducting cross-gender pat-down searched and searches of transgender and intersex inmates in a professional and respectful manner, consistent with

security needs. Supporting documentation was provided in the form of training records. Interviews with random staff indicated that in the past year, during annual in-service, they have included a more detailed block of instruction relations to cross-gender searches and transgender searches.

115.16 Inmates with disabilities and inmates who are limited English proficient

Auditor Discussion

DCD.200.0001 Inmate Rights provides a nondiscrimination clause and also states each Warden shall ensure that newly received inmates are provided information about inmate rights, general institutional schedules, procedures and institutional plans. This orientation may be provided through group sessions or by giving the inmate an orientation package. Special assistance shall be provided to inmates with language or reading problems. Language services are provided through an agreement with LEP Interpreter Services to Ad Astra.

OSPS.050.0030 Sexual Misconduct-Prohibited states inmate interpreters, inmate readers, or other types of inmate assistance are not used to communicate information required under this directive to other inmates, except under limited circumstances where a delay in obtaining an effective non-inmate interpreter would compromise the inmate's safety, the performance of first responder duties, or the investigation of an inmate's allegation.

OSPS.200.0004 Inmate-on-Inmate Sexual Conduct-Prohibited also states except under limited circumstances where a delay in obtaining an effective interpreter could compromise the inmate's safety, the performance of first responder duties, or the investigation of an inmate's allegation, inmate interpreters, inmate readers, or other types of inmate assistance are not used to communicate information required under this directive to other inmates.

115.16(b)-1 Language services are provided through an agreement with LEP Interpreter Services to Ad Astra. This information is made available to staff with information necessary to provide interpreter services as needed.

DPSCS has established a Limited English Proficiency Plan that contains resources and other information to further aid in providing inmates with limited English proficiency an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

During the pre-audit, the facility's Official PREA Brochure was provided in Spanish as supporting documentation. There were no inmates with Limited English Proficiency during the site visit, therefore no interviews with this inmate category were completed.

During the previous 12 months, there have been no instances of inmate interpreters, readers, or other types of inmate assistants being used by the facility. Interviews with random staff indicated they were aware of policy that prohibits the use of inmates interpreters, readers, or other assistants during incidents of sexual abuse or harassment. None were aware of any such incident for the past several years.

115.17	Hiring and promotion decisions
	Auditor Overall Determination: Audited at Agency Level
	Auditor Discussion
	Agency use the "RAP Back Program". COMAR 12.15.01.19 mandates an annual criminal history be conducted on all employees every year (exceeding the five year requirement in this Standard). Additionally, the Agency fingerprints employees upon hire and any arrest is automatically reported through this system. During the audit process and interview with Human Resources personnel, personnel records were reviewed for several current facility employees, a copy of a current application was reviewed, and the interview indicated current processes are consistent with the requirements set forth in this Standard.

115.18	Upgrades to facilities and technologies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	No new expansions or modifications have been added since August 2012. No new video or monitoring technology has been installed or updated since August 20, 2012.
	There have been some mirrors placed throughout the facility in order to supplement cameras and staffing, and prevent blind spot areas until additional cameras can be installed.
	Interviews with the agency Head and the Facility Administrator indicated this facility has a camera plan that has recently been approved. This camera plan calls for the addition of several new cameras and video recording devices that will be installed beginning sometime in the first quarter of calendar year 2017.

115.21 Evidence protocol and forensic medical examinations

Auditor Overall Determination: Meets Standard

Auditor Discussion

115.21(a)1-4 OSPS.050.0030 Sexual Misconduct, IIU.110.0011 Investigating Sex Related Offenses, and IIU.220.0002 Evidence Collection are Policies that have been established designating the Agency Intelligence and Investigative Division (IID) as the responsible party for most sexual abuse and/or harassment investigations. These policies outline the responsibilities of the Investigators and procedures for conducting the investigations as well. The investigators do follow a uniform evidence protocol that is adapted from or otherwise based on the most recent edition of the U.S. DOJ's Office on Violence Against Women publication "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents" or similarly comprehensible and authoritative protocols developed after 2011.

115.21(c)1-10 OSPS.050.0030 states If the alleged sexual misconduct involves sexual abuse, the assigned investigator shall (if medically appropriate or necessary to preserve evidence) offer the victim access to a medical forensics examination at no cost to the victim that is performed by a Sexual Assault Forensics Examiner (SAFE) or a Sexual assault Nurse Examiner (SANE). These exams are conducted at Mercy Hospital in Baltimore.

There have been no Forensic exams. SAFE or SANE exams, or exams performed by a qualified medical practitioner conducted on inmates from the facility in the past 12 months. Any such exams would be documented according to established policy and procedures. During the interview with SANE staff from Mercy Hospital, the auditor was advised there are currently approximately 30 SANE examiners available to conduct these exams at Mercy Hospital. There would always be a SANE available and they also have an on-call rotation so there is always the availability 24/7 for additional SANE examiners in the event there were the need for more that one.

OSPS.050.0030 states, if requested by the victim and the services are reasonably available, have one of the following accompany, for the purpose of support, the victim through the forensic examination and investigation interviews: a qualified victim advocate, a Department employee who is otherwise not involved in the incident and has received education and training concerning sexual assault and forensic examination issues and has been appropriately screened and determined to be competent to serve in this role, or a non-Department community-based organization representative who meets the criteria for a Department employee.

The facility is in the process of working out an MOU with Maryland Coalition Against Sexual Assault (MCASA) and has available victim advocates through an informal agreement at this time. During the audit process, the auditor contacted a representative with MCASA and spoke to her regarding victim advocate services they would have available. The representative stated that she would work as a liaison and assist in finding local victim advocates through local rape crisis centers near the facility. The representative stated MCASA would provide this service regardless of any formal MOU being established. Inmate interviews indicated that most had very limited knowledge regarding the victim advocates, their role, or any services

they provided. When asked, the inmates stated they have not had the need for these services and that is why they did not know much about them, but knew there were numbers and addresses available if needed.

The PREA Compliance Manager interview indicated victim advocates would be provided upon request and there is an informal agreement in place at this time for victim advocate services through MCASA.

115.22 Policies to ensure referrals of allegations for investigations

Auditor Overall Determination: Meets Standard

Auditor Discussion

115.22(a)-1 IIU.110.0011 Investigating Sex Related Offenses- states The Department shall promptly, thoroughly, and objectively investigate each allegation of employee or inmate misconduct involving a sex related offense according to a uniform protocol based on recognized investigative practices that maximize evidence collection to support effective administrative dispositions and, if appropriate, criminal prosecution of the identified perpetrator.

OSPS.050.0030 Section 05-G-1 states that an IID investigator, or an investigator designated by IID, shall conduct a prompt, thorough and objective investigation of every alleged sexual misconduct according to applicable statutory, regulatory, case law, contract, Departmental procedures, or other reasonably accepted standards related to collecting and preserving evidence, interviewing victims and witnesses, conducting and using polygraph examinations, identifying suspects, preserving an individual's personal dignity and legal rights, and maintaining confidentiality of the investigation.

OSPS.200.0004 Section 05-G-1 states that an IID investigator, or an investigator designated by IID, shall conduct a prompt, thorough and objective investigation of alleged inmate on inmate sexual conduct according to applicable statutory, regulatory, case law, contract, Departmental procedures, or other reasonably accepted standards related to collecting and preserving evidence, interviewing victims and witnesses, conducting and using polygraph examinations, identifying suspects, preserving an individual's personal dignity and legal rights, and maintaining confidentiality of the investigation.

The link to agency's website (http://dpscs.maryland.gov/prea/index.shtml) was followed. The Agency website does have the information regarding investigation policy and also contact information for filing a compliant to the Investigative Division.

Interviews with investigative staff indicated that an investigation will occur for every allegation of sexual abuse or sexual harassment. All investigators have received specialized training, specifically for conducting PREA investigations. During the document review, The investigative division also provided documentation of investigator training, for conducting sexual assault investigations in confinement settings.

	OSPS.200.0004 Section 5-b states the head of a unit or a designee, is responsible for ensuring that each supervisor, manager, shift commander, and contractor who has contact with an inmate under the authority of the unit head is familiar with Department policy preventing inmate on inmate sexual conduct.
	COMAR 12.10.01.16 mandates annual in-service training for all employees consisting of 18 total hours at minimum.
	During the pre-audit, the auditor was provided lesson plans and class curriculum for PREA training. Training records were reviewed showing employees are receiving the required PREA training during their mandated annual in-service training.
	Interviews with random staff indicated they have been trained on the PREA required information. All staff were well informed and knowledgeable of their responsibilities and how to detect, report, and respond to incidents of sexual abuse and harassment. Training logs were verified during the audit process indicating PREA training is being conducted.

OSPS.200.0004, Section 5-C and OSPS.050.0030, Section 5-C both state; the head of a unit or a designee responsible for the custody and security of an inmate shall ensure that departmental and unit policy prohibiting inmate on inmate sexual conduct, procedures for filing a complaint, and inmate rights related to inmate on inmate sexual conduct are effectively communicated to each inmate as part of inmate orientation, by inclusion in the facility's inmate orientation paperwork, and the facility's inmate handbook.

DOC.200.0001 requires that each Warden ensure that newly received inmates are provided information about inmate rights, general institutional schedules, procedures and institutional plans. This orientation may be provided through group sessions or by giving the inmate an orientation package, and special assistances shall be provided to inmates with language or reading problems.

Facility Policy MCPRS.200.005.1 Section 5-B-2 states Custody staff shall provide all incoming inmates with a copy of the PREA Informational Brochure within 24 hours of arrival at the facility.

Facility Policy MCPRS.200.004.1 Section 5-4 requires the Warden to ensure that all inmates receive comprehensive PREA education within 30 days of transfer into the facility. All inmates must sign that they have participated in such training and documentation will be maintained in the base-file of each inmate.

Inmate orientation, handbook, and PREA brochure were reviewed. This information is presented to inmates during the intake process. During the site visit, the auditor reviewed several inmate files and noted signature sheets within the files indicating receipt of PREA information during the intake process. In the past 12 months, 1348 inmates entered the facility and remained past 30 days. 100% of these inmates received the required initial PREA education and the comprehensive inmate education as required in this standard.

Interviews with inmates indicated they did recall receiving information during intake (those that have entered the facility within the past 12 months). Other inmates that have been here longer than 12 months, had been educated as well.

Intake staff interviews indicated PREA brochures are provided to inmates during the intake process (usually within hours of arrival) and comprehensive inmate education is provided in the form of a video and is provided within a couple of weeks at most.

This information is provided in English and Spanish. The facility also has access to a translation service that could be utilized for other languages. Hearing impaired inmates are shown video and/or the information I read to them so they are able to understand.

115.34 | Specialized training: Investigations

Auditor Overall Determination: Meets Standard

Auditor Discussion

The agency currently has 30 investigators that have received specialized training for conducting sexual assault investigations in a confinement setting. These investigators are assigned to the Agency's Investigation and Intelligence Division (IID). During the pre-audit, the auditor was provided lesson plans, quiz, and other training related material for specialized training for the investigative staff. Training certificated were provided as supporting documentation of training.

OSPS.050.0030, Section 5-G-2 requires that to the extent possible, but in every case where the allegation of alleged sexual misconduct involves sexual abuse, the investigator assigned to investigate the allegation shall have received specialized training related to conducting sexual abuse investigations in a confinement setting.

OSPS.200.0004, Section 5-G-2 requires that to the extent possible, but in every case where the allegation of alleged inmate on inmate sexual conduct involves sexual abuse, the investigator assigned to investigate the allegation shall have received specialized training related to conducting sexual abuse investigations in a confinement setting.

IIU.110.0011 is a policy specific to investigators for investigation sex related offenses (in confinement). This policy outlines all requirements, duties, and responsibilities of the investigator during a sexual assault investigation.

Interviews with investigative staff indicated all had received training on conducting sexual assault investigations in a confinement setting. All investigators interviewed were knowledgeable of the requirements relating to the PREA standards as applicable to investigative staff conducting sexual assault investigations.

115.35 Specialized training: Medical and mental health care **Auditor Overall Determination:** Meets Standard **Auditor Discussion** DPSCS.020.0026 (PREA) mandates the PREA Coordinator to ensure PREA related trainings comply with federal PREA standards including training for medical and mental health care. Wexford Health (contracted medical provider) Policy mandates staff training that includes (specifically) "Review of this policy, the Prison Rape Elimination Act (2003), and any other applicable state or federal laws". Medical staff training logs were provided during the pre-audit and indicated all medical contracted staff have received PREA training. Interviews of Medical and Mental Health staff indicated they have received specialized training regarding PREA and this included a Power Point presentation that covered topics such as how to detect and assess signs of sexual abuse and sexual harassment; how to preserve physical evidence of sexual abuse; how to respond effectively and professionally to victims of sexual abuse and sexual harassment; and how and to whom to report allegations or suspicions of sexual abuse and sexual harassment.

115.41 Screening for risk of victimization and abusiveness

Auditor Overall Determination: Meets Standard

Auditor Discussion

OSPS.200.0005 (Assessment for Risk of Sexual Victimization and Abusiveness) is a specific policy outlining responsibilities and instruction on conducting initial risk screening and 30-day reassessments. The policy outlines what the screening instrument will consider and how the scoring will help identify inmates at risk of victimization or abusiveness.

Facility policy MCPRS.200.0005.1 is also a policy specific to risk assessments, requirements to conduct the initial and 30-day reassessment, and information regarding the screening instrument and how it is used to identify inmates at risk of victimization and abusiveness. It also mandates separation of these identified inmates.

A copy of the screening instrument was provided during the pre-audit and was determined to be objective and it did consider all factors as required in the standard.

During the site-visit, the auditor was advised that identified inmate victims/potential victims are housed in B Building and identified inmate abusers/potential predators are housed in A Building. During the site visit document review, 16 inmate initial risk assessments and 20-day reassessments were reviewed. All initial assessments were conducted within 72 hours of arrival, and all 30-day reassessments were conducted within the required 30-day time period. At the time of the site visit, there were no identified predators or potential predators, nor were there any identified victims or potential victims. The auditor was also shown a spreadsheet that tracks these identified inmates. The auditor was able to see that the facility has been tracking these identified groups for over the past 12 months and once identified, they are housed in separate buildings. In the past 12 months 1,348 inmates were received at intake and were assessed within 72 hours for risk of sexual abuse and/or victimization.

Interviews with inmates indicated the majority recalled being asked a list of questions that included questions such as if they had ever been in jail or prison before, had they ever been sexually abused, did they identify with being gay, bi-sexual, or transgender and if they felt safe or thought they were at risk of sexual victimization while in custody.

Interviews with staff responsible for risk screenings indicated they conduct initial screenings within hours of the inmate's arrival (always within 72 hours, usually only a few hours) and then Case Managers conduct the 30-day rescreening within usually 20-30 days after arrival. Staff interviews (PREA Coordinator, PREA Compliance Manager, staff responsible for risk screenings) all indicated at no time would any inmate be punished for refusing to answer any question on the screening instrument.

115.42 Use of screening information

Auditor Overall Determination: Meets Standard

Auditor Discussion

OSPS.200.0005, Section 5-C mandates screening information be considered when making decisions related to housing, bed, work, education, and program assignments with the goal of separating inmates who are determined to be at high risk of being sexually victimized from inmates who are determined to be at high risk of being sexually abusive; When making individualized determinations as how to ensure the safety of each inmate; When deciding to assign a transgender or intersex inmate to a facility for male or female inmates and in other housing and programming assignments and, on a case by case basis, determining if the placement or assignment: Ensures the inmate's health and safety; and presents management or security problems. Screening information shall also be considered for placement and programming assignments for each transgender or intersex inmate shall be reassessed at least twice each year to review threats to safety experienced by the inmate. A transgender or intersex inmate's own views with respect to personal safety shall be seriously considered. Transgender and intersex inmates shall be given the opportunity to shower separately from other inmates. Lesbian, gay, bisexual, transgender, or intersex inmates may not be placed in dedicated facilities, units, or wings solely on the basis of such identification or status, unless placement is in a dedicated facility, unit, or wing established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting inmates. Placement of an inmate in special confinement housing shall be in accord with provisions for special confinement housing established in the Case Management Manual.

Classification Directive UD202 is a specific directive to PREA compliance and the use of screening instruments and management of inmates based on the results of screenings.

Interviews with Warden and Staff responsible for conducting screenings indicate that inmate who screen as victims/potential victims are housed separately from inmates who screen as predators/potential predators. This separation is maintained by housing these identified groups in separate building to ensure separation is met at all times. a spreadsheet is also maintained to track these identified inmates and ensure separation is met regarding housing assignments and program/job placement. The PREA Compliance Manager also stated an inmate identified as transgender would not be housed in this facility due to facility design.

	OSPS.200.0005, section 5C-6 states placement of an inmate in special confinement housing shall be in accord with provisions for special confinement housing established in the Case Management Manual. Case management Manual (DOC.100.0002) mandates instances in which inmates may be placed in segregated housing and that an inmate assigned to administrative segregation shall be reviewed by the case management team at least once every 30 days.
	Policies in place mandate compliance with all aspects of the PREA standards and these policies are Agency-wide policies/procedures. There is no segregated housing in this facility, therefore this standard does not apply.

	OSPS.050.0030, section 5-E provides information regarding filing a complaint: (1) A complaint of alleged sexual misconduct may be submitted by the following individuals:
	(a) The victim;
	(b) An individual with knowledge of an incident of alleged sexual misconduct; or
	(c) A "third party" on behalf of the victim or other individual who has knowledge of the alleged sexual misconduct.
	(2) A complaint of alleged sexual misconduct may be submitted in the following formats:
	(a) In writing (includes electronic documents); or
	(b) Verbally.
	(3) A complainant may remain anonymous.
	(4) To effectively reduce actual or implied barriers to filing a complaint, an individual may file a complaint of sexual misconduct with any one or all of the following without regard to chain of command or assignment:
	(a) Within the Department:
	(i) An employee;
	(ii) A supervisor, manager, or shift commander;
	(iii) The head of a unit;
	(iv) The Intelligence and Investigative Division (IID);
	(v) The Inmate Grievance Office; or
	(b) Outside the Department:
	(i) The Office of the Attorney General; or
	(ii) Other private or public office able to receive and immediately forward the complaint of alleged sexual misconduct to the Department.
	(5) An employee receiving a complaint of or otherwise has knowledge of alleged sexual misconduct shall immediately report the complaint to a supervisor, manager, shift commander,

or head of the unit followed by the appropriate written format used to document misconduct.

- (6) If a complaint of alleged sexual misconduct is received by a supervisor, manager, shift commander, or head of the unit at a facility other than the facility where the alleged sexual misconduct occurred, the head of the unit responsible for the facility receiving the complaint shall immediately notify the Intelligence and Investigative Division (IID) of the complaint.
- (8) Information concerning a complaint of alleged sexual misconduct is confidential and may only be available to individuals who have an established role in the reporting, processing, investigating, and resolving the alleged sexual misconduct and immediate and continued care of the victim.

OSPS.200.0004 outlines the exact same process as above for any instance of inmate-on-inmate sexual conduct.

Facility policy MCPRS.200.004.1, section D also covers all aspects of filing sexual assault and harassment complaints. This policy satisfies all requirements set forth in this standard.

A toll-free hotline number is provided for inmates file a complaint and this can be an anonymous report. This service is through Life Crisis Center and has been in effect since December of 2013.

Interviews with staff indicate they were well aware of several methods available for inmates to report instances of sexual abuse and harassment. They were also aware they have available to them the PREA hotline number for confidential reporting of inmate sexual abuse and harassment. Inmate interviews indicated inmates are knowledgeable of different avenues to report sexual abuse and harassment. Most were able to relay to the auditor in interviews that they could report directly to any staff member (in person), they could write a request or more informal note to a staff member, they could call the PREA hotline, and they could contact friends or family on the outside to report for them. Informal interviews during the site visit tour also indicated a general awareness of several methods to report sexual abuse and harassment by both inmates and staff. Staff also indicated any verbal report would be documented immediately after any safety concerns of an inmate were addressed. During the site visit, the PREA hotline number was called by the auditor and was verified as a viable means to confidentially report sexual abuse and harassment.

	OPS.185.0002 states the Department does not permit the use of an informal resolution process or ARP to resolve complaints of rape, sexual assault, sexual harassment, sexual abuse sexual misconduct, inmate on inmate sexual conduct, or other areas afforded protections by standards established under the authority of the Prison Rape Elimination Act (PREA) and related Department procedures, therefore this standard does not apply to this facility.
	Interviews with facility staff confirmed the above and that this applies to this facility.

115.53	Inmate access to outside confidential support services
	Auditor Overall Determination: Meets Standard

	OSPS.050.0030 states: If requested by the victim and the services are reasonably available, have one of the following accompany, for the purpose of support, the victim through the forensic examination and investigation interviews:
	(i) A qualified victim advocate;
	(ii) A Department employee who is otherwise not involved in the incident and has received education and training concerning sexual assault and forensic examination issues and has been appropriately screened and determined to be competent to serve in this role; or
	(iii) A non-Department community-based organization representative who meets the criteria for a Department employee established under §.05G(3)(b)(ii) of this directive.
	OSPS.200.0004 states the same for instances of inmate-on-inmate sexual conduct.
	There is currently a contract for services between Maryland's Department of Public Safety and Correctional Services and Maryland Coalition Against Sexual Assault (MCASA). This agreement establishes the availability and role of victim advocacy services to any inmate in custody of Maryland DPSCS.
	The majority of inmates interviewed did not know specific information regarding the availability of victim advocates or other victim services. The common response to questions about victim services was that the inmate has not had the need for any services such as that, therefore they did not know any details regarding the services provided. During the pre-audit and site visit, the auditor observed posters in housing units, and inmate educational material that is provided to inmates and that the victim services contact information was available to any

inmate through these means and other posters throughout the facility. The inmates interviewed felt that if they did have questions about services, they would be able to get

A toll free PREA hotline is available for public reporting/third party reporting. The brochure also provides more detailed information regarding PREA and other ways to report.

OSPS.050.0030 and OSPS.200.0004 state that a complaint of alleged sexual misconduct (or inmate-on -inmate sexual conduct) may be submitted by the following individuals:

- (a) The victim;
- (b) An individual with knowledge of an incident of alleged sexual misconduct; or
- (c) A "third party" on behalf of the victim or other individual who has knowledge of the alleged sexual misconduct.
- (2) A complaint of alleged sexual misconduct may be submitted in the following formats:

- (8) Information concerning a complaint of alleged sexual misconduct is confidential and may only be available to individuals who have an established role in the reporting, processing, investigating, and resolving the alleged sexual misconduct and immediate and continued care of the victim.
- F. Processing a Complaint.
- (1) A complaint of alleged sexual misconduct received anonymously shall be accepted and processed the same as a complaint received from an identified source.

Facility policy MCPRS.200.0004.1 also addresses these same above processes and reiterates duties to detect, report, and respond.

IIU.020.0002 also addresses the responsibilities of investigators and maintaining confidentiality and complying with all applicable Constitutional and statutory law and judicial rules when conducting an assigned investigation.

Random staff interviews indicated all are aware of their duty to report any knowledge, suspicion, or information they receive regarding an incident of sexual abuse or sexual harassment that occurred in a facility, whether or not it is part of the agency. Interviews with

medical/mental health staff indicated an awareness that they are required to report any knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment to a designated supervisor or official immediately upon learning of it, and that at the initiation of services to an inmate they do disclose the limitations of confidentiality and their duty to report. Warden and other staff interviews disclosed all allegations of sexual abuse and harassment are forwarded to IID. IID conducts all investigations for sexual abuse, but facility may investigate harassment complaints.

115.62	Agency protection duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Facility policy MCPRS.200.0004.1 requires staff to safeguard any inmate that is learned to be at risk of possible sexual abuse or harassment. Interviews with the agency Head, Warden, and Random Staff all indicated an acute awareness of responsibility to protect and safeguard any inmate that is subject to a substantial risk of imminent sexual abuse, and the facility staff takes immediate action to protect the inmate. This may be accomplished through housing assignment changes of either the possible victim or possible predator. This could also be accomplished by facility transfer and reassignment of staff if there is a staff member involved.

115.63 Reporting to other confinement facilities **Auditor Overall Determination:** Meets Standard **Auditor Discussion** OSPS.050.0030 requires that An IID representative notified under §.05E(6) of this directive shall immediately: (a) If the facility where the alleged sexual misconduct occurred is not a Department facility, notify the official responsible for the facility where the alleged sexual misconduct occurred and document the notification. (b) If the facility where the alleged sexual misconduct occurred is a Department facility, notify the appropriate Department official with responsibility for the facility where the alleged sexual misconduct occurred to ensure that the complaint is addressed according to requirements established under this directive and document the notification. (4) If the complaint of alleged sexual misconduct is received by an IID representative, the IID representative shall notify the appropriate agency head to ensure appropriate actions under §§.05F(3)(a) and (b) of this directive are initiated. No such reports have occurred for this facility in the past 12 months. Interviews with Agency Head and Warden indicate that Agency Policy requires that, upon receiving an allegation that an inmate was sexually abused while confined at another facility, the head of the facility must notify the head of the facility or appropriate office of the agency or facility where sexual abuse is alleged to have occurred. The Warden was able to indicate that this would occur within 72 hours without exception. Any such allegations received by this facility from another facility would be investigated just as any other investigation. Assistance would be provided as needed

to any outside agency investigators during an investigation.

Auditor Overall Determination: Meets Standard Auditor Discussion Facility policy MCPRS addresses and outlines staff responsibilities for filing a complaint; processing a complaint; investigating, documenting, and resolving a complaint; and sanctions. OSPS.050.0030 also addresses processing a complaint, and investigating, documenting, and resolving a complaint. This includes response and evidence collection, interviewing victims and witnesses, polygraph examinations, preserving an individual's personal dignity and legal rights, and maintaining confidentiality during an investigation. Miranda and Garrity warnings and criteria for evidence necessary to substantiate administrative action and support criminal prosecution is also addressed in these policies. Two sexual abuse allegations were received during the past 12 months and neither allegation was received in a timeframe that allowed for collection of evidence. In either instance was the

was received in a timeframe that allowed for collection of evidence. In either instance was the allegation made in a timeframe that required immediate separation of victim and alleged abusers. Once learned, the inmates were separated and actions taken to provide safe and appropriate housing for victims.

Through interviews with random staff, the auditor determined that there is a general awareness of staff first responder duties. All staff interviewed were able to articulate they would first separate any identified inmates (victims and/or suspects), secure these inmates separate from each other and in a safe place. Inmates would be instructed not to do anything that may damage or destroy evidence (such as changing clothes, washing, brushing teeth, showering, using the restroom, eating, or drinking).

115.65	Coordinated response
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Facility policy MCPRS.200.0004.1 is a written institutional plan to coordinate actions taken in response to an incident of sexual abuse among staff first responders, medical and mental health practitioners, investigators, and facility leadership.
	During an interview with the Facility Administrator, she indicated the facility does have a plan to coordinate efforts among first responders, medical and mental health providers, investigators, and facility leadership. This includes (but is not limited to) line staff reporting to supervisor, making the inmates safe and securing the scene. Supervisors report up the chain of command all the way up to the Facility Administrator. When the supervisor is notified, medical/mental health is also notified at this time and any outside services are provided if necessary. Mental health provides follow-up care as needed. At Mercy hospital, rape crisis center is available for the inmate prior to any forensic examination. Victim advocates are available during this process and for any follow up assistance as requested or required.

115.66 Preservation of ability to protect inmates from contact with abusers Auditor Overall Determination: Audited at Agency Level **Auditor Discussion** A review of the Agency's collective bargaining agreement as well as Md. Code, indicates the Agency would be prohibited from entering into or renewing any collective bargaining agreement or other agreement that limit the agency's ability to remove alleged staff sexual abusers from contact with any inmates pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted. Such an agreement would be a direct conflict with Md. Code. During interviews with the Agency Head, the auditor was confirmed the agency has entered into or renewed collective bargaining since August 20, 2012. The auditor was advised that the agreement permits the agency to remove alleged staff sexual abusers from contact with any inmate pending an investigation or a determination of whether and to what extent discipline is warranted. Interview with the Facility Administrator during the site visit also indicated the above as being true and applicable to this facility.

115.67	Agency protection against retaliation
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	MCPRS.200.0004.1, section 5-B-5 states the PREA Compliance Manager shall monitor those involved in an incident for signs of retaliation for at least 90 days. During an interview with the PREA Compliance Manager, She did state she was responsible for monitoring for retaliation and that she would monitor for a period of 90 days minimum. There would be no maximum timeframe to monitor for retaliation. As part of her monitoring, she would speak in person to the inmate(s) periodically and ensure they are feeling safe. She would also monitor for changes in behavior patterns, housing assignment changes or requests, medical requests, and any other documentation that could provide insight into any type of inappropriate retaliation being present.
	Agency Head and Warden (Facility Administrator) interviews conducted during the audit also confirmed the process at the facility for monitoring for retaliation. Facility Administrator also advised there are designated forms to document retaliation monitoring that are kept during this process. Disciplinary sanctions would be imposed upon inmates and/or staff found to be retaliating. This could be up to and including termination for staff. They maintain zero tolerance for retaliation.

115.71 | Criminal and administrative agency investigations

Auditor Overall Determination: Meets Standard

Auditor Discussion

IIU.110.0011 (Investigating Sex Related Offenses) is a policy specifically dedicated to investigating sex related offenses. This policy states:

A. The Department shall promptly, thoroughly, and objectively investigate each allegation of employee or inmate misconduct involving a sex related offense according to a uniform protocol based on recognized investigative practices that maximize evidence collection to support effective administrative dispositions and, if appropriate, criminal prosecution of the identified perpetrator.

- B. Department personnel assigned to conduct an investigation of alleged employee or inmate misconduct involving a sex related offense shall be trained in techniques related to conducting investigations of sex related offenses in the correctional setting.
- C. Department personnel assigned to conduct an investigation of alleged employee or inmate misconduct involving a sex related offense shall perform investigative activities professionally with due consideration for the emotional state of the victim resulting from the physical and emotional trauma and personal embarrassment resulting from the sex related offense.

Interview of investigators indicated that allegations normally would be responded to right away, and that third-party investigations would be handled just as any other investigation of an alleged incident of sexual misconduct. Investigators do receive training specific to conducting sexual abuse investigations in confinement and this specialized training was a seven-hour training block. The training included techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative or prosecution referral. During interviews, investigators further stated the first steps of their investigation would normally be to talk to the victim. They would respond immediately, unless it is after hours and it is an allegation that can wait until the next day (sexual touching, etc.). However, if penetration was involved they would always respond immediately. They would interview the victim, collect all the evidence, interview witnesses and potential witnesses, submit the evidence to the state police crime lab. If it is a criminal matter, they would refer for criminal charges. Evidence collections would include gathering victim clothing, Getting DNA swabs from any suspects, collecting witness statements, photographs, etc. Investigators would discuss possible charges with a prosecutor in the event evidence is discovered that may support criminal charges. If determined that staff violated policy, an administrative investigation would be opened on that staff member. They would review policy and the facts to determine whether the staff violated policy. Administrative and criminal investigations are documented the same. Documentation of who, what, when, where, how, are all listed in the reports. All evidence is included in the report, including results from DNA tests, victim, suspect, witness statements, and any other evidence. Cases would be referred for prosecution when the investigator determines there is enough evidence to warrant a prosecution.

There have been no substantiated allegations of conduct that appear to be criminal that were referred for prosecution since August 20, 2012.

During the site visit, the auditor visited the IID and reviewed several investigations from

several different facilities. There were no investigations available to review for this facility, however this being an Agency-wide investigative division, the auditor was able to determine adequate processes and measures are being made by investigators to comply with all aspects of the PREA standards relating to investigations.

115.72 **Evidentiary standard for administrative investigations Auditor Overall Determination:** Meets Standard **Auditor Discussion** COMAR 12.02.27.14 states: The hearing officer shall decide the outcome of a case based on a preponderance of evidence. COMAR 12.11.04.09 states: The presiding officer shall use a preponderance of evidence as the standard of proof, unless the standard of clear and convincing evidence is required by regulation or statute. IIU.110.001 (Investigating Sex Related Offenses) Section, 5-H-2 states: Upon concluding an investigation involving an inmate as a victim of a sex related offense and based on a preponderance of evidence, the investigator shall advise the victim inmate if the investigation resulted in the incident being determined to be: (a) Substantiated meaning an allegation that was investigated and determined to have occurred; (b) Unsubstantiated meaning an allegation that was investigated and the investigation produced insufficient evidence to make a final determination as to whether or not the event occurred; or (c) Unfounded meaning an allegation was investigated and determined to not have occurred. Investigative staff interviews indicated a preponderance of evidence is the evidentiary standard they use when investigating allegations of sexual abuse and/or harassment.

Auditor Discussion

IIU.110.001 (Investigating Sex Related Offenses) Section, 5-H-2 states: Upon concluding an investigation involving an inmate as a victim of a sex related offense and based on a preponderance of evidence, the investigator shall advise the victim inmate if the investigation resulted in the incident being determined to be:

- (a) Substantiated meaning an allegation that was investigated and determined to have occurred;
- (b) Unsubstantiated meaning an allegation that was investigated and the investigation produced insufficient evidence to make a final determination as to whether or not the event occurred; or
- (c) Unfounded meaning an allegation was investigated and determined to not have occurred.

The investigator shall document victim notification under §.05H(2) of this directive in the investigative report recording:

- (a) The name of the individual who notified the victim;
- (b) The date, time, and location that the victim was notified; and
- (c) How the victim was notified.

OSPS.050.0030 requires (under section 5-H): H. Victim Notification.

- (1) When notified by an investigator under $\S.05G(4)(c)$ of this directive, if the allegation was sexual abuse, the head of the unit responsible for the victim inmate shall ensure that the victim inmate is notified of the investigator's determination that the allegation was substantiated, unsubstantiated, or unfounded.
- (2) Except when an allegation of sexual abuse is determined to be unfounded, the head of the unit responsible for the victim inmate shall, for as long as the inmate is under the authority of the Department, ensure that the inmate is notified of the following situations concerning the employee who victimized or is alleged to have victimized the inmate:

Interviews with the Facility Administrator indicated IID notifies all inmates of the results of any investigation of other information requiring inmate notification. The facility also receives a copy of any notification and this is maintained in the inmate's base-file. Investigative staff interviews indicated they notify the inmate and the PREA Compliance Manager at the facility. The inmate is told verbally and the PREA compliance Manager receives the notification by mail. The investigators document the time and date of inmate notification in their report.

Auditor Discussion

OSPS.050.0030, Section 5-I states: A complaint of alleged sexual misconduct made in good faith based upon a reasonable belief that the alleged sexual misconduct occurred may not be considered a false report or lying, even if the required investigation does not establish sufficient evidence to substantiate the allegation of sexual misconduct.

Chapter 27 of COMAR 12.02.27 states:

- B. Mental Health Condition.
- (1) If the defendant inmate's behavior indicates that the inmate may not be competent to participate in a preliminary review or hearing, the defendant inmate shall be referred by the hearing officer or facility representative or staff to mental health staff to assess the inmate's mental health status.
- (2) The mental health staff shall:
- (a) Conduct an assessment to determine the defendant inmate's ability to participate in the proceedings;
- (b) Document the assessment; and
- (c) Forward the assessment to the hearing office

OSPS.200.0004, Section 5-A states:

- A. An inmate may not:
- (1) Commit, participate in, support, or otherwise condone sexual conduct;
- (2) Dissuade, advise, or discourage or attempt to dissuade, advise, or discourage an individual from filing a complaint of sexual conduct; or
- (3) Retaliate, threaten to retaliate, or attempt to retaliate against an individual who files a complaint of or participates in the investigation or resolution of an allegation of sexual conduct.

The Facility Administrator indicated in her interview, that inmates would be subject to in-house disciplinary sanctions for engaging in inmate-on-inmate sexual abuse. Following a criminal finding of guilt for inmate-on-inmate sexual abuse, inmates subject to disciplinary sanctions. Criminal charges would be filed if determined to be appropriate during the course of the investigation. The disciplinary sanctions imposed would be similar to those imposed on other inmates having committed similar offenses. Mental disability or mental illness would be taken into consideration when determining disciplinary sanctions.

Interviews of medical and mental health staff indicated they offer therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. They do not require the offending inmate to participate in such interventions as a condition of access to programming or other benefits. Mental health staff interviewed stated they would have an initial assessment and they would set up a cognitive behavior program based on the individual's needs and adjust the program as needed. They would not gauge an inmate's participation as a condition of access to programming or other benefits.

115.81 Medical and mental health screenings; history of sexual abuse **Auditor Overall Determination:** Meets Standard **Auditor Discussion** Facility Policy MCPRS requires the following: Conduct initial screenings within 72 hours of intake and forward this information to Case Management within one business day. Case Management is required to place appropriate alert codes in these inmates' files (PREA ND: for no designation, PREA VP: for victim potential, PREA AP: for aggressor potential, or PREA MX: for mixed). Case Management is then required to forward all PREA screening instruments which indicate a potential PREA Victim/Abuser to mental health staff for further evaluation. Through interviews with staff responsible for conducting screenings, they indicated most initial screening occur within a couple of hours of an inmate arriving. Case Management interviews indicated that upon receipt of all screening instruments (normally the day after inmates arrive, or the Monday after arriving if on the weekend) they review each one and refer to mental health if screenings indicate prior victimization or abusiveness, or the potential for either of these. Case Managers are also responsible for conducting the 30-day reassessments and normally conduct these within 20-30 days after inmates arrive. Referrals are made for inmates that disclose prior victimization and abusiveness, or screen as potential victims or abusers. In the past 12 months, 100% of inmates that screened having prior victimization or abusiveness were referred for mental health follow ups.

Interviews with medical and mental health staff indicate that for both, they obtain informed consent from inmates before reporting information about prior sexual victimization that did not

occur in an institutional setting.

Auditor Overall Determination: Meets Standard Auditor Discussion Interviews with medical and mental health staff indicated inmate victims of sexual abuse do receive timely and unimpeded access to emergency medical treatment and crisis intervention services. Included in these services, victims are offered timely information about access to emergency contraception and sexually transmitted infection prophylaxis. All services provided are determined according to the medical or mental health provider's professional judgement. Interviews with medical and mental health staff indicate that for both, they obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting. An interview with an inmate that had reported a sexual abuse, stated that he was able to see a Mental Health professional prior to going to Mercy Hospital for his SANE exam. Upon return he was scheduled for follow up MHMR services. An interview a non-security staff member who had been a first responder indicated they did contact

medical and mental health as a part of her response to the outcry. The inmate was seen by

both medical and mental health in a timely manner.

115.83 Ongoing medical and mental health care for sexual abuse victims and abusers Auditor Overall Determination: Meets Standard **Auditor Discussion** Medical Evaluation Manual, section I states Policy: Detainees/inmates reporting to have been sexually assaulted while in DPSCS custody shall be managed using guidelines consistent with the Prison Rape Elimination Act (PREA). This Manual instructs all medical staff of their obligations, processes, and measure to put into place in the event of a sexual abuse allegation or incident. All aspects of this standard are covered within the manual. Section II-F-7: all follow testing relating to Sexually Transmitted Infections (STI), pregnancy, HBV, RPR shall be reviewed with the inmate within 5 business days, including any additional testing or required treatment. Section O states: All treatment services shall be provided to both parties (victim, and the alleged abuser) without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. Interviews with medical and mental health staff indicated treatment services would consist of follow-up visits and referrals for outside follow-up care if the inmate were to be discharged from custody.

Auditor Overall Determination: Meets Standard Auditor Discussion MCPRS.200.0004.1 is facility policy that includes information pertaining to incident reviews and review team responsibilities.

and review team responsibilities.

The Facility Administrator interview indicated the facility does have an incident review team

that consists of upper-level administration, first line supervisors, medical and mental health staff, investigative staff, and the PREA Compliance Manager. During the incident review, they discuss possible changes or variables that may have caused the incident. All recommendations are taken into consideration and looked at to better the environment and improve safety for the inmates and staff.

The PREA compliance Manager stated during the interview that the facility prepares a report of its findings from the reviews, including any determinations per Standard 115.86 (d) -1 though (d) -5 and any recommendations for improvement. The PREA Compliance Manager prepares the report and it is forwarded to the Facility Administrator for review and approval. From the prior incident reviews conducted, there have been no trends noticed. At the conclusion of an incident review, any recommended changes would be looked into, followed up on, and/or considered.

The interview conducted with a member of the Incident Review Team indicated the review team does consider whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility. The team also examines the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse, and assesses whether monitoring technology should be deployed or augmented to supplement supervision by staff. They also assess the adequacy of staffing levels in that area during different shifts.

Incident reviews are documented on a standardized form titled "Maryland Division of Correction Post- Incident Review". This form contains general information to be provided as well as blanks to input narratives in response to certain questions. A secondary form titled "Sexual Abuse Incident Review" goes with the prior document and is more specific to Sexual Abuse Incidents and the requirements of the standard.

	The Auditor was provided the opportunity and full access to tour all areas of the facility during the site visit. Any and all documentation requested and needed to determine compliance with any standards was provided without hesitation to the auditor. The facility fully cooperated with requests for inmate and staff interviews. Inmate interviews were chosen by the auditor and no problems arose due to selection or facility inconveniences. These interviews were conducted in private in an office setting. Inmates were asked about the PREA Audit notices and how long they had been posted (several weeks was common response). This PREA Audit notice was provided to the facility more than six weeks prior to the date of the site visit and the facility indicated the notices were posted the day after receipt allowing for more than six weeks of notice for inmates. The notices were visibly posted in all inmate housing units and in common areas including public lobby and visitation areas. No correspondence from inmates was received by the auditor prior to arrival for the site visit.
